

All resistors 1/2 watt unless otherwise specified.  
 Capacitors in whole numbers are not electrolytics.  
 Capacitors in decimals are af.  
 Capacitors are 500 volt unless otherwise specified.  
 All voltage measurements with VTVM on 110 volt operation.  
 Receiver voltages measured in receive position with no signal applied.  
 Transmitter voltages measured in transmit  
 with antenna connector terminated into 50 ohms.
